# CHARLES GEORGE WALLER

Waller was part of the motley crew who graduated from IGS in the June of 1911. All of his group volunteered to serve in WW1. Little did he know that in only six short years he would be dead. Waller died in France, on the 13<sup>th</sup> of April, 1917, of meningitis. He was just 21 years old.

The poignancy of the words etched into his grave is striking:

*"The bugles of England were calling and how could I stay"*

This quote epitomises the typical Aussie Digger - they left their lives back home in Australia, to do the right thing. To fight against evil, to save the Mother Country.

The impact of this loss of life, some 60,000 Australians were killed, with approximately 156,000 returning home having been wounded, gassed or taken prison, will never be truly known.

Men like Waller, and their willingness to make the ultimate sacrifice, must never be forgotten.
